

Curriculum summary

Yoruba language is mostly spoken in South western Nigeria and in some areas in Brazil, Cuba, Togo, and Benin Republic.

At the end of the course, students will be able to learn their mother tongue, culture, heritage, and traditions in a friendly and fun environment.

They will be able to speak fluently, read and write in Yoruba language and pass the knowledge to the next generation.

They will learn through songs, stories, rhyme, roleplay, reading books and perform cultural activities at the end of the school year.

Principals update

The classes are held 2nd and 4th Saturday of the month through Zoom between 10am and 11 am which may be reviewed as times goes on.

Our curriculum is designed to focus on grammar, comprehension, and oral expression so that the students can have a practical command of the language. Our instructors use selected teaching materials that enhance the performances of the students in speaking, reading, writing, visualise and listening.

When teachers, parents, and communities work together to support learning, students do better. Parental involvement is a big factor in students' success, we have seen this through the participation of students in class, and how well the assignments are done. The students are always eager to learn and socialize better and are always looking forward to the next class activities. We will continue to help the students towards achieving their goals in Yoruba Language School.
